

# Poll Research Results

April 11, 2009 to April 17, 2009

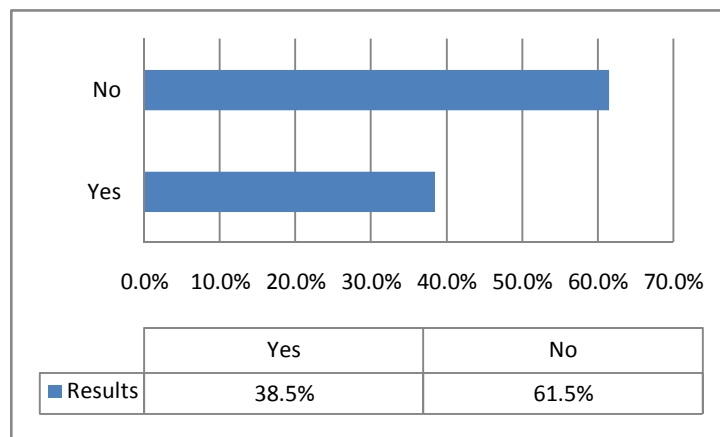

This week's poll results, once again, measure investor perspectives about dealing with a recession. The poll was not scientific and was driven by radio listeners of the syndicated Don Creech Radio Show ([www.DonCreech.com](http://www.DonCreech.com)).

1. Do you think our government should redistribute wealth through heavy taxes on the wealthy?

2. Do you regard the income tax that you will have to pay this year as fair?

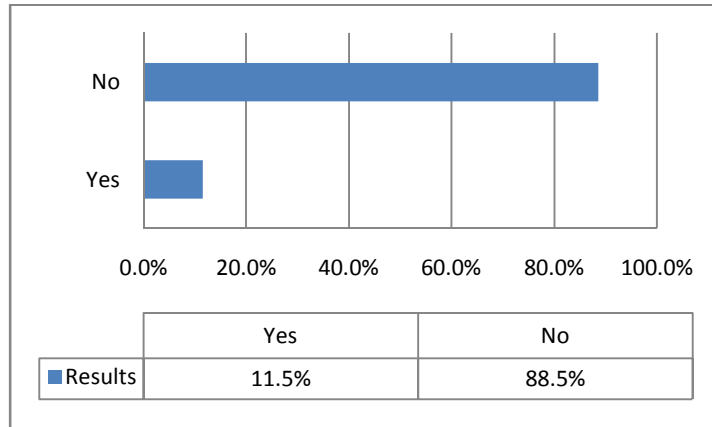

# Poll Research Results

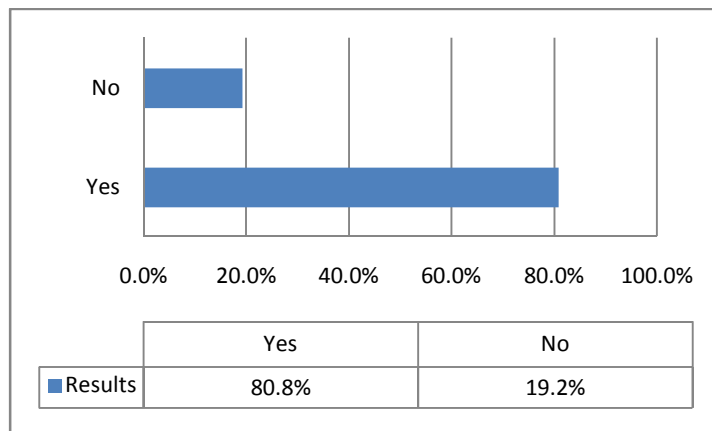

April 11, 2009 to April 17, 2009

3. Right now, do you think that the economic conditions in the country as a whole are getting better?

4. Does your view on the current direction of the economy affect your spending level?
